EXPERIENCE

IAM Consultant	April, 2025 – Present
Software Productivity Strategists, Inc	<i>Islamabad, Pakistan</i>

- Serving as **Resident Engineer at Askari Bank Ltd (AKBL) Headquarters**, managing enterprise identity operations and security infrastructure.
- Performed full enterprise-level deployment and configuration of **IBM Security Identity Manager/ IBM Security Verify Governance (ISIM/ISVG)**, including **DB2** database setup, **IBM Security Directory Server (LDAP)**, and **IBM Security Directory Integrator (SDI) 7.2** with initialized solution directory.
- Configured and validated **IBM Security Verify Access (ISAM)** in a VMware-based lab environment, with integration work ongoing alongside **ISIM** and **Active Directory**.

Full-Stack Developer	April 2024 – March 2025
Vision Tech 360	<i>Rawalpindi, Pakistan</i>

- Developed and maintained web applications using **MERN Stack** and **ASP.NET MVC**.
- Designed and integrated GIS solutions using **ArcGIS** with ASP.NET.
- Implemented robust authentication mechanisms using ASP.NET Identity.
- Referred to **Innovista** as IT Manager and Software Developer for an e-commerce project named **vistamart.biz**; managed platform performance, security, and infrastructure.
- Developed **Cypulse** (Cyber-security Website) using MERN stack and built an Ionic React mobile app for cross-platform delivery.
- Collaborated with cross-functional teams to align technical solutions with business objectives.

PROJECTS

IBM Security Verify Privilege (PAM) Deployment Deployed **Privilege Vault and Manager** in an offline environment. Resolved installation blockers by manually setting up a local **SQL Server** database and configuring secure **IIS** web connections.

Enterprise ISIM Deployment End-to-end deployment of IBM Security Identity Manager (**ISIM**), with **DB2** database configuration, IBM Security Directory Server (**LDAP**), and **SDI 7.2** solution directory initialization.

Active Directory Integration & Governance Deployment of Active Directory with ISIM integration via **SDI/TDI** adapters - **Dispatcher**, to facilitate automated, policy-driven user onboarding/offboarding and centralized identity lifecycle management.

Cypulse A web application designed for a cybersecurity company, built using the MERN stack. [Live on GitHub](#)

Maze Escaper Game Final Year Project using **Unity**, **Blender**, and C#. Developed an interactive game featuring a maze and coin collection system.

Portfolio Website A personal portfolio website showcasing projects and skills, built using **React**. [Live on GitHub](#)
